Abrisa Technologies Publishes Corporate Capabilities Brochure

January 21, 2011 - Santa Paula, CA – Abrisa Technologies has just published a new corporate capabilities brochure detailing their product and service offerings for precision glass optic optical products via their three industry leading divisions; Abrisa Industrial Glass, Sycamore Glass Components, and ZC&R Coatings for Optics.

The new, 6-panel Abrisa Technologies brochure provides a capabilities overview of each of the three divisions as well as an introduction to Abrisa Technologies.

Highlighted within the brochure are the prototype and high-volume OEM products and service capabilities offered to Abrisa Technologies’ primary industry targets; defense, display, lighting & entertainment, medical, imaging systems, and the photovoltaic sectors.

Abrisa Technologies focuses upon providing high reliability, high quality precision optical product solutions for the following product and service categories:

- **Precision Thin Film Optical Coatings** - Indium Tin Oxide (ITO) and Index-Matched (ITO), Anti-Reflective (AR), Heat Control (Hot & Cold Mirrors), UV Blocking Filters, Color Filters, Color/Temperature Correction, Beam Splitter, Metal Coatings, Front Surface Mirror, Covert/Semi Covert Filters, IR Coatings, Neutral Density Filters, Anti-Fog, and more.
- **Custom Glass Fabrication** – Cutting, Edging, Screen Printing, Machining, Bus Bar, Strengthening, Metrology, Cleaning, and Specialty Packaging.
- **Specialty Glass Products** – Soda-Lime, Borosilicate, Glass/Ceramic, and Specialty Glass.

With over 80 years of combined design and manufacturing experience, Abrisa Technologies, and its divisions deliver cost-effective solutions that are on-time, in-spec and within budget. A quick review of the brochure provides the reader with a broad-based introduction to the company as a whole. For more information the brochure directs inquires to the website; www.abrisatechnologies.com.
About Abrisa Technologies: Abrisa Technologies is headquartered in Santa Paula, California and is comprised of three divisions that provide precision glass optics products and services. The divisions include; Abrisa Industrial Glass, Inc., Sycamore Glass Components, and ZC&R Coatings for Optics. As a market leader in optical coatings and high quality precision glass fabrication, Abrisa Technologies is dedicated to providing premier customer service, cost-effective products that fit each customer’s exacting requirements.
