Abris Technologies to Exhibit at Photonics West 2012

Santa Paula, CA – Abris Technologies a global leader in thin film optical coatings, custom glass fabrication and specialty flat glass optics will be participating in the 2012 Photonics West Show being held at Moscone Center in San Francisco, California from January 24th through January 26th at booth # 1738.

According to John Schmeling, National Sales Manager for Abris Technologies, we are quite excited about the 2012 exhibition. ‘We have a host of new capabilities as well as our existing precision optical solutions to share at the exhibition.’

Featured Products at the 2012 show will include:

- High Ion-Exchange (HIE) chemically strengthened glass (Live demonstration)
- Strengthened thin glass for display applications
- Precision thin film coatings (ITO, IMITO, AR, UV, IR, etc)
- Dichroics & color correction filters
- Machined glass capabilities (edging, hole drilling, cutting)
- Screen Printed Optical Components including Bus Bars
- Glass substrates (soda lime, borosilicate, glass/ceramic, fused silica, specialty glasses)
- Beam Splitters
- Hot & cold mirrors

ZC&R coatings for Optics, Abris Industrial Glass, and Sycamore Glass Components are the three divisional brands that comprise Abris Technologies. All three of the division’s products and services will be represented at the exhibition.

Unique to Abris Technologies, is their ability to provide an entire optics solution which includes not only the initial glass substrate, but a fully fabricated product inclusive of coatings for an integrated optics solution. From small run to large OEM requirements, Abris technologies has over 80 years of experience providing precision optical solutions for a wide array of industries and applications.

About Abris Technologies: Abris Technologies is headquartered in Santa Paula, California and is comprised of three divisions that provide precision glass optics products and services. The divisions include: Abris Industrial Glass, Inc., Sycamore Glass Components, and ZC&R Coatings for Optics. As a market leader in optical coatings and high precision glass fabrication, Abris Technologies is dedicated to providing premier customer service, cost-effective products that fit each customer’s exacting requirements.
