UPDATED Abrisa Technologies COVID-19 PANDEMIC STATEMENT

Abrisa Technologies consisting of Abrisa Industrial Glass (AIG) and ZC&R Coatings for Optics (ZC&R) continues to be fully operational and ready to support your critical specialty glass, custom glass fabrication and optical coating requirements. Our material supply chain is robust and our inventories of critical specialty glasses, including thin and ultra-thin glass remain stable and reliable.

We continue our on-site physical operations in both facilities, Santa Paula, CA for glass fabrication and Torrance, CA for optical coatings under the exemption allowed for essential businesses that support infrastructure for the state of CA and our nation for critical industries such as: Defense, Communications, Information Technology, Agriculture, Health, and Transportation.

Maintaining the health and safety of our employees is paramount to us while we operate. We are continuously monitoring the COVID-19 Pandemic situation closely, and the management team is in constant review and updating of our health and safety protocols. We have implemented the social distancing and physical hygiene requirements requested implemented by the CDC and the applicable local county governments at each facility to ensure our workforce is safe and secure.

As an update, we are now requiring all employees at both facilities to wear protective facemasks while in the facilities in accordance with California state guidance rules. Additionally, we are taking temperatures of all employees at the start of each shift to reduce the risk and maintain a safe workforce.

Rest assured, our employee’s welfare is key to our successful support of your uninterrupted flow of product and services and we are following all guidelines and beyond to meet and exceed the CDC policies. At Abrisa Technologies, we are all doing our part to stop the spread of the COVID-19 virus.

To date, Abrisa Technologies has had zero confirmed COVID-19 cases at either facility and trust that our precautions and safety control measures will keep our workplace a safe environment.

Please let us know if you have any questions or if we can assist you with your critical requirements.

Sincerely,

Blake Fennell
President & Chief Executive Manager
